0920 - 0925	Closing Speech by Jonathan Toke, Asia/Pacific Vice President
0925 - 0930	Grand Opening of Haskell Pte Ltd Office in Singapore

Haskell Introduction

Preston Haskell
Founder of The Haskell Company

Preston Haskell played an instrumental role in the formation of the Design-Build Institute of America (DBIA). In 1993, design-build was still considered "nontraditional". However, Haskell and his peers reasoned that design-build backers needed an organization to represent the interests of design-builders.

Asia Accolades

NATIONAL AWARD MERIT WINNER
in Industrial, Process and Research Facilities category. Awarded for a project in Singapore by DBIA

GOLD AWARD FOR
OSH MANAGEMENT
AWARDED BY MOSHPA
(Malaysian Occupational Safety and Health Practitioners)

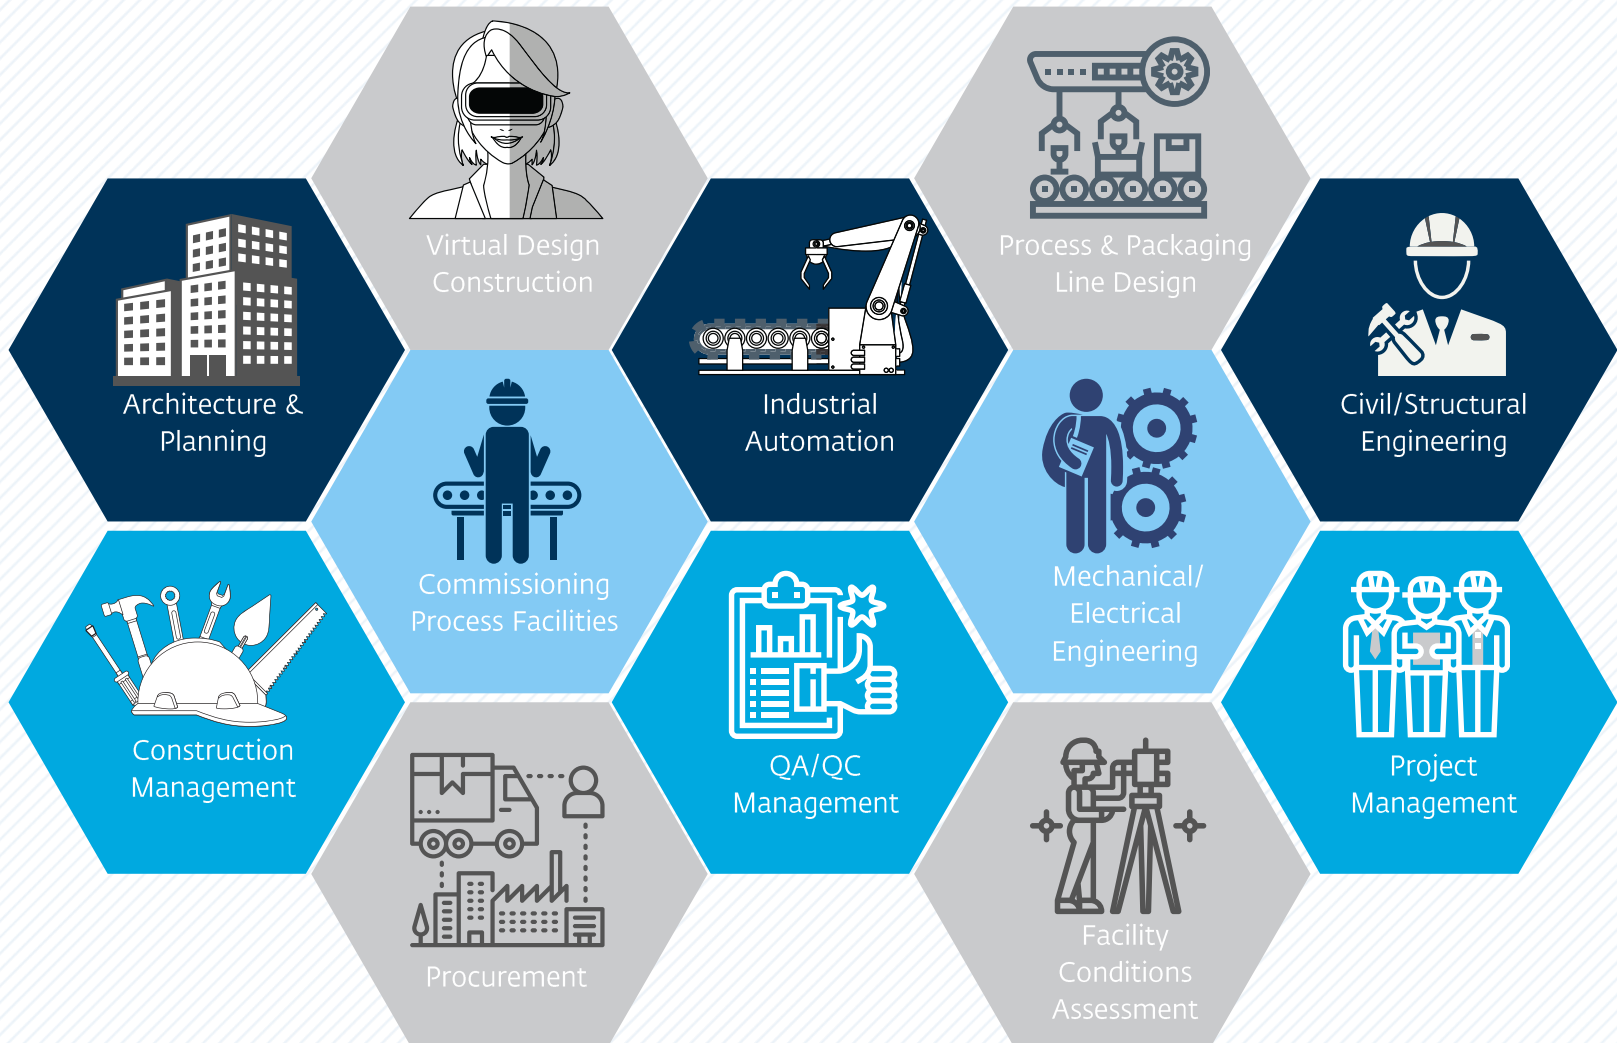

BEST BIOPROCESSING INNOVATION AWARD FOR CLEAN & STERILE ENGINEERING

Our In-House Capabilities & Services

- ◆ Owner's Trusted Advisor
- ◆ Business Case Optimization
- ◆ Conceptual & Detailed Design
- ◆ Select General Contractors, Procurement Specialist Suppliers, OEMs, or Subcontractors
- ◆ Support all phases of Installation and Start Up
- ◆ Provide continuous support after initial project is complete

Our Capabilities

Project References

Highlights

- ◆ Engineering, Construction Management and Full-Design Procurement for a Flavor Factory facility in Singapore.
- ◆ Performed risk identification and mitigation.
- ◆ Haskell was engaged in early business planning and implementation strategy.
- ◆ Led innovation workshops that drove \$25 million of USD value.

Highlights

- ◆ Civil, structural, mechanical and electrical work for the Power Filling Room Upgrade, Expansion Project and Renovation Project.
- ◆ Civil & structural for the Anti-static Floor Work Project
- ◆ Mechanical work for the New Fume Extraction System Project
- ◆ Mechanical work for the Concrete Slab Design for Pallet Storage.

Highlights

- ◆ Lean manufacturing master plan / conceptual design for a 119,000 sqft flavor and fragrance production facility in Singapore.
- ◆ Upgrade facility by increasing automation rate and improving production flow
- ◆ Other services: Optimization of production layout, forecast future production trend, cost estimation, production technology comparison and selection.

Highlights

- ◆ Project Management for a 70,000 sqft land reinstatement works in Singapore
- ◆ Other Services: EBS study, liaison with JTC and Owner's representative on site for Safety and site management.
